

Chaitanya Jha

ELECTRONICS & INSTRUMENTATION ENGINEERING STUDENT

Bengaluru, Karnataka, India | cjha234156@gmail.com

EDUCATION

Bangalore Institute of Technology (BIT)

Bachelor of Engineering (B.E.) in Electronics and Instrumentation Engineering | 2025 - Present

- Core Specializations: Computational Circuit Logic, Hardware Description Languages, and Algorithmic Performance.
- Analytical Core Strengths: Advanced Engineering Mathematics, Rigorous Systems Physics.

Air Force School ASTE, GV Camp, Bengaluru

Primary & Secondary Education | Classes 5 - 12 & LKG - Class 2

- Completed higher secondary curriculum focusing on core scientific domains, mathematics, and experimental sciences.

No. 1 Air Force School, Gwalior

Primary Education | Classes 3 - 5

- Completed foundational primary logic and schooling milestones.

TECHNICAL SKILLS

Core Programming Languages: Python, C, C++

Web Dev & Databases: Web Development, JavaScript, HTML, CSS, MySQL

Hardware Systems & CAD: Hardware Description Language, Solid Edge

QA & TESTING BACKGROUND

Ecosystem & Driver Validation History

- **AMD & Intel:** Performed driver testing configurations, checking shading stability loops and resource trace metrics.
- **Google Developer Ecosystem:** Stress-tested and audited over 100+ applications assessing build targets and alpha/beta memory consumption.
- **Microsoft, Xbox, & Riot Games:** Identified structural environment bugs and telemetry drops (specifically during the 2020 Valorant closed beta).

ENGINEERING PROJECTS

Aegis One

AI & Document Verification System

- Engineered a software project to analyze documentation materials, checking layout anomalies to detect deepfakes.

CodeCoach AI

Full Stack Code Practice Platform

- Designed a platform utilizing persistent memory tracking configurations to monitor architecture trends and flag repeating logic errors.

Smart Sewer Management

IoT Automated Telemetry Diagnostics

- Architected an automated sensor network mapping system layout to evaluate localized flash flood factors dynamically.
